You could lose their service business, their parts and body shop business and possibly even F&I profit. The solution? Let us track all your previously sold customers 24/7 and if they are at another dealership looking for a vehicle, we alert you immediately so you can contact them.

This is just one part of our exclusive marketing program that will help you maintain your current customers as well as help you grow your new business. In addition, we even alert you when consumers in your market that you have not sold in the past are looking to buy and finance a vehicle.
