Challenged

SubPrime

## HERE'S HOW IT WORKS

- **STEP ONE**  
Once a dealership is member dealer with Rapid Qualifier, they log in to a secure site.
- **STEP TWO**  
Enter the consumer's first name, last name, address, city, state, and zip code.
- **STEP THREE**  
Within seconds you will know what credit tier range applies to the prospect.
- **STEP FOUR**  
Once the results are in you simply desk the deal according to the customer's credit tier.

**SHE LOOKS LIKE A 10, BUT IN SECONDS  
RAPID QUALIFIER CAN TELL YOU SHE'S  
ACTUALLY SUBPRIME.  
(NO CREDIT CHECK REQUIRED)**

What if you had a credit-ranging capability in your dealership that worked like X-Ray glasses? One that could see right through initial appearances and tell you someone's credit score tier in seconds? Direct from the credit bureau's Rapid Qualifier can provide you with a customer's credit tier, estimated income, length of residence, exact age and many more. Rapid Qualifier scores your customer up front, quickly and accurately, saving you time and money.

Rapid Qualifier is designed to "Pre-Qualify" a consumer for proper positioning of the consumer during the initial introduction phase of a sale. This service allows you to utilize the minimal information captured during the initial interaction of you and the consumer. Minimal information of the consumer can be processed through our service to yield a tier ranged evaluation of the consumer. You can then use the information to position the consumer into the right vehicle and with the right loan.
